

Matt Sparks

CONSTRUCTION PLANNING and SCHEDULING CONSULTANT
512-731-7991

EDUCATION:
B.A. Political Science
Baylor University,
Waco, TX, 2015.

Matt Sparks has worked in the construction industry as a project planner & scheduler on multiple large-scale projects. His recent experience includes project management consulting, quality control, time analysis, schedule creation & maintenance, public affairs, and litigation analysis disciplines. Mr. Sparks grew up in a Construction Family and learned scheduling at an early age. He has worked in the field on multiple construction projects.

Furthermore, Mr. Sparks has managed multiple large-scale projects for Presidential, Gubernatorial, Senate, and Congressional Campaigns and has managed numerous multi-million-dollar budgets.

Mr. Sparks has prepared and managed numerous projects, presented delay analysis, and reviewed schedules on construction projects that include roads, parks, government facilities, industrial, housing developments, schools, semi-conductor fabrication, data centers and design centers. As a Baylor University graduate, Mr. Sparks brings an extensive political campaign, project management skill set and experience in project planning and scheduling, that allows him to assist in creative problem solving and the implementation of innovative solutions.

A sample of Mr. Sparks' recent Planning & Scheduling assignments:

Semiconductor Fabrication

National, Intel (2025-2026). Project lead for logistics and scheduling support for high priority government projects.

- Project Schedule Lead for IFL Project.
- Helped write contracts, manage contractor/sub-contractors, and sequence work for IFL Projects and Intel Owners Program that resulted in hitting contracted milestones and forecasted completion on time in 2026.
- Help create and implement industry-high standards for Project Scheduling General Conditions, Specifications and Standard Operating Procedures.

New Mexico, Intel (2023-2024). Project lead for logistics and scheduling support for new semiconductor fab at Rio Rancho campus.

- Site scheduler for Progressive Builds, Base Build, LOD and Tool Install schedules.
- Responsible for implementing new systems and processes that changed the standard and culture of projects; resulted in promotion from state to national role.
- Scheduling Consultant for Risk-Analysis and Claims advisory.
